STATEMENT OF OBJECTS AND REASONS

The Workmen's Compensation Act, 1923 provides for payment of compensation to workmen (or their dependants) in case of personal injury caused by accident or certain occupational diseases arising out of and in the course of employment and resulting in disablement or death. The Act was last amended in 1976.

- 2. The Act at present applies to railway servants and persons employed in certain hazardous employments specified in Schedule II of the Act and drawing wages not exceeding Rs. 1000 per month. The National Commission on Labour had recommended inter alia that the wage limit for coverage under the Act may be removed altogether. The Law Commission of India, which had reviewed the provisions of the Act, had also made a similar recommendation. It is, therefore, now proposed to do away with the wage limit for coverage altogether. It is likely to benefit a large number of workmen who are at present drawing wages exceeding Rs. 1000 per month.
- 3. Section 4 of the Act provides for payment of compensation at the rates specified in Schedule IV of the Act. These rates of compensation were last revised in 1976 and there is a demand for its upward revision. Further, the amount of compensation is at present determined without reference to the age of the workman. This is not considered fair. It is, therefore, now proposed to provide for payment of compensation in terms of percentage of monthly wages linked to the age of the workman at the time of his disablement or death. The proposed revised rates of compensation are based on the rates specified in the ILO Convention concerning Minimum Standards of Social Security, except that the compensation payable in respect of those drawing wages exceeding Rs. 1000 per month is proposed to be restricted to the amount payable on the wage of Rs. 1000 per month.
- 4. The list of occupational diseases specified in Schedule III of the Act is proposed to be substituted by a revised list, which is based on the revised list of occupational diseases adopted by the ILO in 1980.
- 5. Opportunity is also, being taken to delete the reference to 'His Majesty's Dominions etc.', which is no longer relevant.
 - 6. The Bill seeks to achieve the above objects.

New Delhi; The 21st February, 1984.

VEERENDRA PATIL.

FINANCIAL MEMORANDUM

The Workmen's Compensation Act, 1923 covers a large number of persons employed by Central Government in Railways and in its various Departments such as Posts and Telegraphs, Central Public Works Department, Ordnance factories, etc.

- 2. Clause 2 of the Bill seeks to do away with the existing wage limit for coverage altogether. This would bring within the purview of the Act, a large number of workmen drawing wages exceeding Rs. 1000/per month in respect of whom the employers (including the Central Government) have at present no statutory liability for payment of compensation.
- 3. Clause 3 seeks to introduce a new formula for calculation of compensation amount in lieu of the fixed amount of compensation specified in existing Schedule IV. The formula now proposed to be inserted will ensure payment of compensation at comparatively higher rates than the existing rates.
- 4. The above mentioned two proposals in their application to the workmen employed by the Central Government, will involve increased expenditure from the Consolidated Fund of India by way of payment of compensation. However, as compensation becomes payable only in the event of an employment injury resulting in disablement or death, it is not possible to estimate in advance the amount of additional expenditure involved.
- 5. The Bill does not involve any other expenditure whether of a recurring or non-recurring nature.

STATEMENT OF OBJECTS AND REASONS

The Asiatic Society, Calcutta is a society deemed to be registered under the West Bengal Societies Registration Act, 1961. It was established on the 15th January, 1784 through the exertion of the well-known Indologist William Jones who was then a puisne judge of the then Supreme Court at Fort William in Bengal. The Society has all along served as the fountainhead of various literary and scientific activities in the country. The society has a rich collection of books, manuscripts, coins and various art objects.

- 2. Over the years, the activities of the Society have declined and its affairs have deteriorated.
